

16th Annual Cib's Gelbvieh & Balancers Opening Day Sale

**Saturday
March 5th, 2022
1:00pm on the Farm**

Fellow Cattle Enthusiasts,

Welcome to our 2022 bull and female sale! Thank you for your interest in our program. If you are repeat customer, we value your loalty and are grateful for you. If you are a new customer, we'd like to tell you a little more about our operation and how we separate ourselves from the norm at Cib's Gelbvieh and Balancers.

First, our cows have to WORK FOR US! Minimal supplementation is used for the cows throughout the year. We use an extensive rotational grazing system, running 80 pair on 110 acres. We don't creep feed our bulls at any point so their true genetic potential as seedstock shows. This also allows us to target our highly maternal cow families. Secondly, our bulls aren't grown in a half acre feedlot eating high energy rations. They roam a 10 acre paddock allowing them plenty of exercise to make meat instead of fat. There's nothing better than watching a group of young athletic bulls roaming the pasture together. I'd put our bulls up against anyone else's for longevity and fertility.

This year's offering has exceeded our expectations. The summer of 2021 dried up the pastures, but kept our grass hard, resulting in good weaning weights. The bulls and females have been managed every step of the way, here on the farm. I won't send our bulls off to a feedlot and not be able to regularly monitor their performance and behavior. Having eyes on our cattle, and working with them daily, allows us to give you the most honest opinion on their development over time. We are also able to eliminate any problematic cattle. Our goal has always been to raise cattle that will be problem free under practical conditions and produce an end product with plenty of merit.

Come early to check out the cattle, visit, and enjoy some cinnamon rolls and coffee. A belly busting complementary lunch will start at 11:00. The auction will be broadcast over DVAuction. If you can't make sale day, online and phone bidding will be available. Thank you to all of our past customers for your continued support and we look forward to seeing you and meeting some new friends on March 5th!

Sincerely,

Matt Cibula & Family

NOTES

HEALTH & NUTRITION

- Bulls and heifers have received all appropriate vaccinations and applicable boosters. They have also been poured prior to sale day.
- Bred females received a scour guard dose of Guardian on December 5th.
- Females were blood tested for pregnancy on July 5th. Sale females were tested again on January 20th to confirm pregnancy. Due dates are estimates.
- Bulls and heifers have been fed a TMR ration mixed by nutritionists at Big Gain Feed. Bulls are fed to gain 3.0-3.5 lbs/day.

SALE INFORMATION

- We welcome you to come view the cattle on the farm at anytime prior to sale day.
- The sale will be broad casted with DVAuction. Make sure you set up an account in advance if you wish to purchase on-line.
- Lunch served from 11:00 a.m. to 1:00 p.m.
- In case of inclement weather, call/text 641-751-0069 or check our website/Facebook.
- Bulls stay free until April 1st. \$3 per head per day after. Take your bull home on sale day and get a \$50 off plus \$50 to have the bull semen checked.
- Females should leave on sale day.
- All bulls selling for \$3,500 or more will have a 1st breeding season guarantee (90 days after turnout) and free deliver up to 250 miles.
- Seller is retaining 50% semen interest on all bulls selling, unless otherwise noted.
- All animals sell according to the AGA's terms and conditions.
